

27th IEEE Workshop on Signal and Power Integrity

May 07-10, 2023 -- Aveiro, PORTUGAL

Over the past two decades, the *IEEE Workshop on Signal and Power Integrity (SPI)* has evolved into a forum of exchange on the latest research and developments on design, characterization, modeling, simulation and testing for Signal and Power Integrity at chip, package, board and system level. The workshop brings together developers and researchers from industry and academia in order to encourage cooperation.

In view of previous years success, the Committees are hardworking and keen on the 27th Edition which will be held as in-person event in Aveiro, Portugal, in a joint organization between the *Institute of Telecommunications* and the *University of Aveiro*. A main goal for *SPI 2023* will be to provide an exceptional level of international exposure for Companies interested in sponsoring the event, by promoting their products and services to all participants, as well as significantly enhancing their visibility and reputation on Signal and Power Integrity expertise.

It is therefore a pleasure to invite your Company to actively support *SPI 2023* under the conditions presented in the next page of this letter, with several sponsorship opportunities available to choose from, each one with different marketing opportunities and attractive benefits. Registration for Sponsors ends on **April 5th, 2023**.

We thank you in advance for your time and attention, looking forward for your contact.

With kind regards,

The Workshop Chairs,

Joana Catarina Mendes

Instituto de Telecomunicações, Aveiro (POR)

Stefano Grivet-Talocia

Politecnico di Torino, Torino (ITA)
